# About Us

Founded in 2016, Casa Arabia involves itself in interior designing, turnkey contracting & general trading. We cater to residential and corporate sectors from designing to executing all types of interiors.

Our Designing concepts are a combination of aesthetics, functionality and innovative ideas, and have made us one of the most reputable interior designing firms in Bahrain.

Our process envisions design ideology from the concept stage, developing detailed outputs in order to create workable realistic design schemes which make the best use of space. The strength of our designs rests in our ability to provide clients with both the most cutting-edge and cost-effective solutions of form and functionality. Our key to success is presenting realistic, practical, and innovative design solutions.

We provide an integrated bespoke service covering each and every aspect of your needs. We create successful and impressive homes through our exacting attention to detail, an empathetic understanding of our clients' tastes and ambitions, and an acute awareness of timescale and budget. The result is a home that is not only beautifully designed, but of a timeless quality that will sustain throughout the years.

## Our Mission

The core purpose of the company is to create spaces for our clients that inspire them, and turn their dreams into reality. With an uncompromising attitude towards quality and state-of-the-art design concepts, we strive to look beyond conventional thinking and transform spaces and lives.

## Our Vision

To be distinguished as the leading interior design firm across Bahrain and beyond. As we move towards our goal of being a world-class design & trading company, we will strive to be recognized for the integrity of our people, the ethics of our business practices and the quality of our service.

## Core Values

### **Make things easy.**

We make things easy not only for our clients, but for our partners and team members.

### **We've got your back.**

When things get tough, we always go the extra mile.

### **Our Word is our bond.**

We build trust through integrity and accountability.

# The Founders

Casa Arabia Design Studio W.L.L. were founded jointly in 2016 by Samer Mahmoud and Riaz BK, whose combined experience is nearing 20 years.

Having recognized that people want their spaces to reflect their aesthetic sensibilities and meet their practical needs, they have curated a varied range of furniture, fabric and wall-paper brands from upscale European designer brands to highly-refined furniture makers that are still within everyone's reach.

Moreover, with two fully-equipped workshops in Bahrain and Saudi Arabia, they leverage modern technology, premium materials and practical knowledge of their skilled artisans to craft upholstered furniture and curtains that are made-to-measure and built to last.

# Furnitures

*“Real comfort, visuals and physical is vital to every room”*

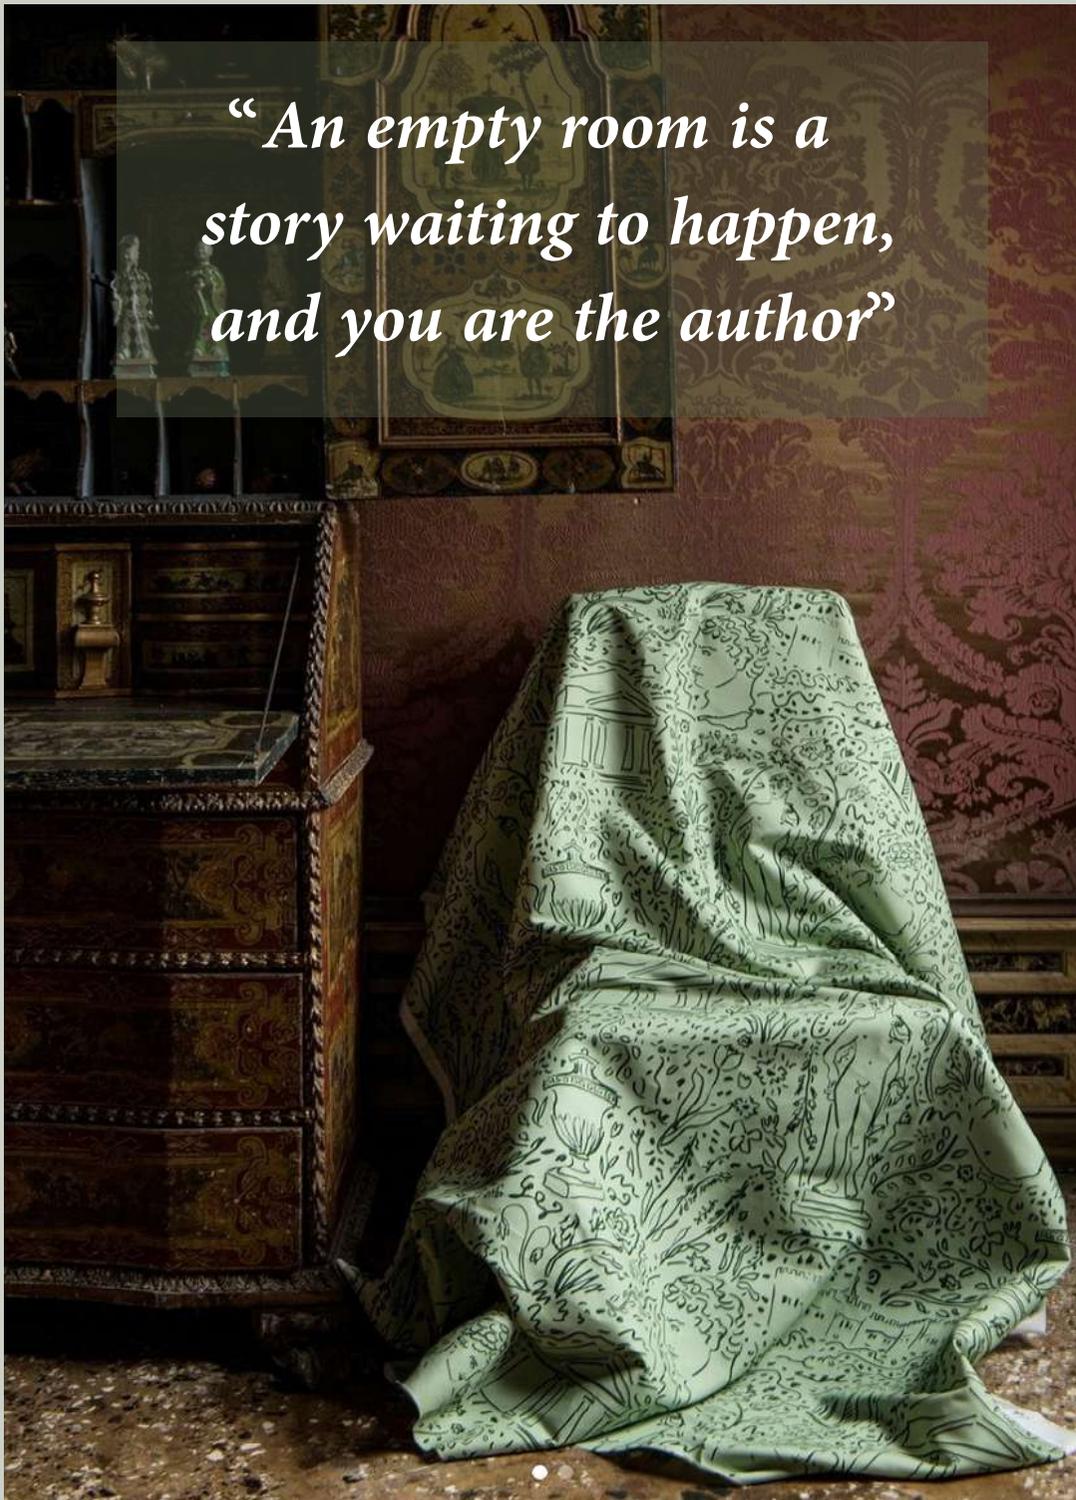

*-Mark Hampton*

*“The details are not the details, they  
make the design...”  
-Charles Eams*

*“An empty room is a story waiting to happen, and you are the author”*
